Good evening. I am a proud resident of Saint Paul's West Side. Wabasha Brewing is a neighborhood gathering spot and enhances the quality of life for the neighborhood. The music is always respectful and brings joy to those who come to listen. I strongly support Wabasha Brewing Co being allowed to have live music. I have lived in the Neighborhood since late 2016 and have met and built relationships with many neighbors at Wabasha including have made a connection with a local auto dealer resulting in is purchasing our first car. Wabasha brings value and joy as well as economic support to the West Side as many support area restaurants before or after visiting Wabasha. Wabasha brings joy & helps to make the west Side a community and Saturday music will only enhance it.
