

PETITION

TO KEEP OUTDOOR CANNABIS SMOKING IN ST. PAUL

The St. Paul City Council is currently considering a public ban on cannabis smoking in St. Paul. Grounded Gardens is actively gathering signatures from members of the community to highlight a significant point: if cigarettes are permitted for public smoking, cannabis should receive the same treatment, especially considering the recent state legalization.

We kindly invite you to join us this upcoming Wednesday at 3:30 PM at City Hall. Your presence is essential as we aim to share stories that emphasize the harmonious manner in which cannabis users come together. This gathering is an opportunity to illustrate the peaceful coexistence of cannabis enthusiasts within our community. Your voice matters, and your story will contribute to this important conversation.

PETITION

TO KEEP OUTDOOR CANNABIS SMOKING IN ST. PAUL

The St. Paul City Council is currently considering a public ban on cannabis smoking in St. Paul. Grounded Gardens is actively gathering signatures from members of the community to highlight a significant point: if cigarettes are permitted for public smoking, cannabis should receive the same treatment, especially considering the recent state legalization.

We kindly invite you to join us this upcoming Wednesday at 3:30 PM at St. Paul City Hall. Your presence is essential as we aim to share stories that emphasize the harmonious manner in which cannabis users come together. This gathering is an opportunity to illustrate the peaceful coexistence of cannabis enthusiasts within our community. Your voice matters, and your story will contribute to this important conversation.
