Hi Marcia,

I was unable to get a photo of the front of the house directly. The photo of the Boulevard at an angle shows rocks in the foreground, across the carriage walk, and in the background by the street light. The first two stacks are in the drip line of the tree. The background rocks are not. This is a wider than usual Boulevard that measures 11 feet from the curb to the sidewalk. The Boulevard is also raised to a height between 12 and 16 inches above curb height.

I will try to get a direct photo later today or tomorrow morning. Please let me know if there's anything else that you need.

Thanks,
Dick
