Hi Marcia,

Are there public meeting minutes available from the City Council meeting on 12/20 that I am able to access to confirm that the City Council has closed its nuisance/abatement file with respect to this property?

Thank you and happy holidays!
Kristina

Good Morning All!

Seems like there should be a party or something! Thank you Christina for navigating this case through both both bureaucracies. You are a remarkably good lawyer and they are lucky to have you. Much appreciated!

Mai, can you prep the resolution for the next Council agenda indicating this nuisance condition has been abated, so the current Council 12/20, who are familiar, see the case close?

Thanks All! -Marcia

Good morning Joe,

I understand my client received confirmation from the City yesterday that the pre-demo inspection is complete and they can move forward with the demo.

We also reviewed the current assessments on the property and I noted a Securing and/or Emergency Boarding with a pending date of 11/6/2023 (<https://eproperty.logis.org/stpaul/assessments/list?pid=292922110093>). Can you please provide a copy of any order or notice that was provided that I can give to my client?

Thank you and I hope you have a happy Thanksgiving.

Good morning,

By way of update, Twin Town Demolition confirmed they are in the process of pulling the demo permit. The extermination contractor did the pre demo baiting yesterday, which is a 72 hour baiting. They are finalizing a couple more sign offs before they can pull the demo permit. They meet on Thursday afternoon with St. Paul Animal Control at the property to sign off on the pre demo baiting. They called the water and sewer company today and will be scheduling a date today to disconnect the sewer and water lines.

They have advised that they have attempted to reach Mr. Yannarely by phone but have not yet connected and have emailed him their updates.

Please let me know if you have any questions.

Thank you.

Hi Marcia,

Thank you for your response. I will provide the vendor with Joe's contact information to address any permitting concerns.

I was unaware of the Oct. 6 city order – I did not receive a copy and am not sure if our vendor received notice. I will check with them if they received a copy.

Thank you,
Kristina

Kristina,

Just checked in with vacant building team staff at DSI, Joe is out for the day now. Yes, there are requirements that need to be met. A demo company should be very conversant in these. Staff indicate there is no record of any application (or conversation) for a demo-related permit for this property from this or another vendor. Please have your contractor reach out directly to Joe Yannarely if there are permitting concerns.

Again, the Council voted on 8/16 to grant your client 15 days to remove. We discussed how, if the permit was pulled and a contractor secured in that time period, DSI works with owners as they are actively pursuing demolition. I do not feel assured that your client will be acting expeditiously on this, given both the 9/25 commitment below of action to be undertaken by end of week; and also the city order of 10/6 to secure the building and the city ending up having to do that. (Photo below)

I am not asking DSI to delay the process of bidding the demo or acting on those bids. If costs are incurred by the City, they will be assessed to the property. I can say, definitively, the Council wants that building down already. Who does it is of less concern.

Regards, Marcia

Marcia and Joe,

Our vendor has advised that in order to pull the permit, there are quite a few requirements that need to be completed and they are actively working on trying to complete them to pull the permit. They've asked if there is anything the City can do to help get rushes on these item to speed up the process?

Good morning Marcia and Joe,

I apologize greatly for the delay. I spoke with my client who advised that the contractor originally assigned to the demo had to be pulled off the job but they had another vendor lined up who was working on pulling the demolition permit (Twin Town Demolition) several weeks ago. They said they went out to pull the permit on October 4 and was informed by the City that the soonest he could obtain the permit was Oct. 12/13 and needed to have a number of requirements completed in order to have the permit approved, which the vendor has been working on completing.

I understand the vendor is currently getting the utilities cut off to the home and has scheduled the exterminator to be done today.

Please let me know if you have any questions.

Thank you,
Kristina

Good Morning Joe, No, I am not confident. A very reasonable length of time has been provided. The Council vote was on 8/16. I appreciate DSI giving the owner the opportunity to proceed on their own. This is a disappointment to me who advocated in good faith on their behalf. I do not believe there is any reason to delay getting bids for the City to do the demo. Thank you, Marcia

Good Morning Kristina,

We still have no demo permit from DLO Excavating. Wondering if there is an update on that. Below is a summary on the permits we do have. I'm not sure if your contractor has initiated hazmat abatement if needed and that may be the delay. Typically, a permit is pulled and then that happens. Let me know what you can.

Also, our Forester was out there this morning to inspect on the tree removal order. He was approached by 2 gentleman who indicated they did the work and were not paid. I updated Karl on the tree removal issues from 9/1/23. The names of the gentleman are Ismael Carmelo (715-714-5587) and Terio Welsh (763-204-4671).

Thanks for all, Marcia

08/31/2023	23 077574	Inspection Pending	RW - PW Right of Way Permit - Obstruction - Contractor And Joint Sewer Permit	Contractor And Sewer Obstruc 4' behind the j
08/31/2023	23 077571	Active/Issued	SS - PW Sewer Permit - Sanitary - Abandonment	Contractor And Bulkhead sewi line.

Looks like there is an inspection pending on the sewer obstruction permit 9/30/23.

No scheduled inspection on ROW Permit, although there is a note in the file:

08/31/2023 Len Mark: Contractor is responsible for contacting the Forestry Unit for trimming of any parts of i
in the way of the sewer work.
