Hello Ms. Moermond,

I have done my best re:abatement order, and removed all above ground items in my garden.

Having had a recent hip

replacement, this was difficult work, and I request that I be given til spring to remove rocks, as they are frozen in the ground.

My goal is May 15th to finish.

The abatement order arrived in the mail on Dec 15, late in the day. I was given til Monday Dec 18 to clear the garden. The last day to appeal was Sunday the 17th of Dec. A near impossible task

My many neighbors always seemed to enjoy my garden. Parents with children always stop and enjoy the view. So I

was surprised that my garden was stated to be a "nuisance condition". In addition to the fact that St Paul encourages

boulevard gardens, and almost annually I receive awards or honorable mention from the "Blooming Gardens". My garden is

tidy and well maintained. The last 2 attachments will show that I have removed all "structures, trellis, planters, decoration"

from the now unhappy garden.

Thank you,

Nancy Ness
