Subject: Waste, water, property taxes department make huge disaster to residents!

Think Before You Click: This email originated outside our organization.

I want to complain that Saint Paul Waste, Water, Property Tax Services Office causing big trouble for residents!

From the very beginning, you create a false proposition, continue to extend along this error, and finally raise your life and death power to evaluate and judge! As result of this dereliction of duty and neglect of attitude, you did not listen, did not pay attention, and did not even investigate! Finally, there is no reason for the residents to bear these groundless arrears! You have caused great damage and disaster to the lives of the residents!

1. Garbage Service Management Department:

Since I left to China on October 20, 2019 until I return to the United States on October 24, 2024. It was for 5years. I don't live in the US at all, but why my payment for ever month on garbage services fees!!! In all for\$3,800!! What you did service for

As early as October 2019, when I went to China, in order to apply for this "hold services", I made a very difficult phone call, sent an email to get a form, filled it out, and finally post mail to the "hold services" office! This is just a small case of spam service, why set up such a complex processes to solve it! It just real tortured residents! By applying get the form calling and emailing for get the form, print it out to fill with forms blank and then mail it to the Refuse Service... dear me!

It is the Internet are, not the Middle Centuries !

And the garbage office phones, which almost never get answered!

I kept emails what on I applied "hold service" as provided.

2. water service: Just like garbage management,

The water service management also is negligent and calls to the office are never answered!! Manager Jackson Winn first got the call, but never picked it up again after that! I want all the payment records. How can I pay thousands of dollars when I haven't lived in the US for five years and even the water metre and floodgates was turned off! how can been charged water fees for thousands doll ??!

I am homeless to book aspartame for My home no Gus no water for many years. I call police about fraudulent insurance claims! Just turn off water and gas but nothings work on my house case! During I was in China My agent with contractor together just fraud many away from my insurance company.....

I believe that justice may be late, but he is never absent

I wish to get real fair to deal with.

We know Saint Paul's municipal construction and management system is very perfect, but it still needs to strengthen the supervision and management mechanism and improve the management mechanism of urban life services. Look forward to the government management department to give me help! Best regard.

Hello,

I'm just reaching out to confirm that this is your working email. We just spoke about garbage assessments. Could you confirm your full name please?

We are most likely going to have to schedule your hearing for Thursday, January 25 (instead of the 11th). We will keep you updated.

Thanks,
