CITY CLERK

Appeal For Building.

From
I had problems ~~from~~ the very
start for permits. I asked for
a permit to start. It took 1 year and
3 months - The building inspector wouldn't
give it. Till I went to the City
Delay. There was a inspector that came
and said - I can't move forward without
a permit. And I said to him - did you give
Restoration's Professionals a permit to
totally destroy my building. He looked at me
with no response and left. So I could not
continue till I got a permit. which was
a year later. I have been constantly
working on the building - and paid my
taxes on the building. But every single
time - I need a permit from you -
theres always a problem? From all the people
I hire to do the work - Always a permit
problem. I finally got one for the electrical
the guy was out till the end of August 2024
Now I can actually can move on.

but as you know — other things
besides that needs to be done.

So I'm asking for more time for the
building. Because of lack of permits.
I continue to work everyday on the
building — would ask for 2 months.

I pay my taxes — follow the rules
and don't think this is unreasonnable.

While I know asking for more time,
I'm not stepping on anybody's
time line. Please accept my appeal
as I am trying my very best. I know how
to make it into a very nice place for people
to live in. Thank-You for your time and
consideration. Much appreciated. Would be nice if
you could come look at building.
