Subject: Park Street repair
Date: Monday, April 14, 2025 2:41:24 PM

[You don't often get email from arnoldlabelle@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

To whom it may concern: With my current property tax costs increasing dramatically each year, I will be hard pressed to add \$550.80 as an assessment for the repairs. The street conditions have been deteriorating since Governor Perpich canceled the once per year coating of the streets. The current condition is not that bad, since the contractors that installed the natural gas pipeline replaced the pavement after their installation. Please reconsider this program as it will place most residents of this area in an awkward situation to comply with the assessment. Thank you
