Good morning council members,

My family and I reside in the Highland Park neighborhood of St. Paul and want to show support for RES 26-121 which would call on Gov. Walz to pass an eviction moratorium via executive order to protect our community while ICE terrorizes our neighbors.

We demand that no families are kicked out of their homes while they are too afraid to go to work or cannot go to work because they've been detained.

Additionally, I'd like to ask that the city council considers additional legislation to address the serious issue of families having medical emergencies but being too afraid to go to the hospital. When even nurses are afraid to go to work because of rampant profiling (Kavanaugh stops), this will lead to detrimental health outcomes.

Sincerely,
Elysia Gallo
1246 Bayard

My family and I reside in the Highland Park neighborhood of St. Paul and want to show support for RES 26-121 which would call on Gov. Walz to pass an eviction moratorium via executive order to protect our community while ICE terrorizes our neighbors.

We demand that no families are kicked out of their homes while they are too afraid to go to work or cannot go to work because they've been detained.

Additionally, I'd like to ask that the city council considers additional legislation to address the floods of reports of women 9 months pregnant too afraid to go to the hospital and are therefore considering at-home births even for high-risk pregnancies. This is in addition to other reports of families having medical emergencies but are too afraid to go to the hospital. Hospitals have said it is too much of a liability to allow nurses to do in-home visits for these cases.

Hello,

My name is Katie Carlson I am a constituent in Saint Paul, MN and am writing to demand that the Saint Paul City Council do everything in their power to get ICE out of our city and our state. I am also writing to express my support for the eviction moratorium and to ask that the separation ordinance be heard at the 1/21 meeting.

The aggression and violence with which these federal agents have been treating our community members is shameful, illegal, and unacceptable, and the city council must do everything it can to keep our city and our neighbors safe.

Thank you and stay safe,

Katie Carlson

Hello,

My name is Madison and I reside in the Highland Park neighborhood of St. Paul. I'm writing to you to show support for RES 26-121 which would call on Gov. Walz to pass an eviction moratorium via executive order to protect our community while ICE terrorizes our neighbors. This is something that Gov. Walz can do to immediately protect and support the constituents he serves.

We demand that no families are kicked out of their homes while they are too afraid to go to work or cannot go to work because they've been detained.

Additionally, I'd like to ask that the city council considers additional legislation to address the floods of reports of women 9 months pregnant too afraid to go to the hospital and are therefore considering at-home births even for high-risk pregnancies. This is in addition to other reports of families having medical emergencies but are too afraid to go to the hospital. Hospitals have said it is too much of a liability to allow nurses to do in-home visits for these cases.

Thank you for your time and consideration.

Sincerely,

Dear Saint Paul City Council Members,

I am a resident of Ward 5 and am writing in support of RES 26-121 which would call on Gov. Walz to pass an eviction moratorium to protect our community while ICE terrorizes our neighbors.

I demand that no families are kicked out of their homes while they are too afraid to go to work or cannot go to work because they've been detained.

Additionally, I'd like to ask that the city council considers additional legislation to address the serious issue of families having medical emergencies but being too afraid to go to the hospital. Concerned healthcare providers are doing everything possible to find solutions to reach and care for their patients, but support from elected officials is necessary to ensure everyone can safely access the medical care they need. This is a pressing public health issue which I implore the City Council to address.

Sincerely,
Sam Sharpe

Hello,

I am writing in to lend my support for the resolution calling for an eviction moratorium to be discussed at today's city hall meeting. The devastating impact ICE has had on community members to work, receive medical care, get kids to school, or leave the home for essentials such as groceries cannot be overstated, and ensuring our neighbors are not evicted during this dangerous time is essential to community health.

I also strongly support and encourage legislation to address the serious issue of families not receiving necessary medical care due to fear of leaving the home and coming to clinics and hospitals. As a hospital chaplain this is heart-rending to see our patients suffering needlessly because of ICE intimidation and use of force ; safe healthcare is a right and if our hospitals aren't safe in this current moment then I call on our civic leaders to collaborate with medical professionals to create unique solutions to home- and community -based medical interventions.

Thank you,

Shelby J, MDiv, BCC
St. Paul Hospital Chaplain
