You don't often get email from missylarry@comcast.net. [Learn why this is important](#)

Dear City Council members,

We are residents of St. Paul and are in the Como-Eustic Sanitary Sewer Development District affected by new developments aligned with Health Partners and Luther Seminary and perhaps others in the future. These developments will put increased sewer capacity needed for this district.

If we are reading the current proposal currently to be discussed at the City Council meeting on August 19th, we understand that the proposal puts the increased costs on the developers, not the residents. If this is the intent of the proposal, then we support the proposal. We are a very tiny sewer district that encompasses a small part of St. Paul and do not support any costs being shouldered by the residents.

Thank you.

Missy McDonald
