You don't often get email from paulasmackey@gmail.com. [Learn why this is important](#)

Hello,

I am writing in **opposition** to the requested sound level variance for the Excel Utility Project on the CPKC railroad crossing at Eagle Parkway. I reside at 240 Spring St., directly across from the project, with my windows facing the railroad crossing in question. The variance requests **continuous** operation while tunneling, October 19 to November 2, 2026.

We who live in the Upper Landing residential neighborhood are already subject to excessive noise at all hours of the day from the trains, railroad crossing, and heavy traffic on Shepard Road.

This project would add to our ready high noise level and adversely affect our neighborhood residents' sleep and quality of life.

Please do not approve this sound level variance.

Paula Mackey
