City Council,

I hope you take the strongest precautions in considering whether the City is responsible for defending the mayor in the pending lawsuit. This whole situation feels like it is stemming from budget issues, and it has been a frustrating distraction from the real issues facing the City as a resident. I am extremely frustrated with both the Police Chief and the Mayor for their blatant lack of unprofessionalism, and hope you do the proper due diligence in understanding how confidential HR information was leaked. If any of the conduct was substantiated then there City should not be on the hook for special attorney charges, and if there were any policies and procedures violated, then the necessary steps must be taken.

Thank you,

Andrew Boucher
1476 Selby Avenue
